Lemuria Land Park

"Lemuria Land Park" located just 10 minutes from the center of Hell-Ville, this zoological and botanical park includes many endemic species of the island-continent such as Nile crocodiles, various species of turtles and lizards, dozens lemurs and other Malagasy snakes. There is also an impressive collection of insects such as butterflies or beetles of the fauna and flora of Madagascar. A pleasant moment in the middle of the Ylang centenarians during which you will discover also the distillery SPPM founded in 1889 by the Missionary Fathers where one makes the biggest world production of essential oil of Ylang Ylang. The former Rhumerie will offer you, in addition to an explanation of the manufacture of this alcohol, a tasting of old rum exceptional.
