Landing on Nosy be at 16H00.

**Archipelago of Mitsio**

The archipelago is made up of 5 islands: the Grande Mitsio, Nosy Lava, Nosy Ankarea, the four brothers and Nosy TsaraBanjina and the Beaver Bank is 8 minutes west of the Grande Mitsio.

Although the Mitsios are a divers' paradise, do not forget that the beauty of the islands and the beautiful beaches make this place the perfect destination for "bubble-free" discovery. In addition, to the north of other unexplored islands offer a terrestrial flora and fauna still intact.

**Dives**

Thanks to the diversity of the seabed, the Mitsio is the perfect place for divers of all levels. The depth varies from 2m (excellent for snorkeling) to 35m, with an average of 15-25m. You will be able to admire all kinds of corals, including the amazing giant sea fans, as well as a multitude of coral fishes. There are many schools of barracudas, jacks and other pelagics, as well as mantas and whale sharks.

**Archipelago of Radama**

The archipelago of Radama is made up of 4 islands: Nosy Kalakajoro, Nosy Ovy, Nosy Antany Mora and Nosy Valiha. This archipelago has amazing tropical vegetation and beautiful little-visited beaches. The few fishing villages are worth a visit. Not only for the sympathy and hospitality of the locals, but also to discover their way of life.

**Dives**

All dive sites are concentrated on the Mozambique Channel, about 3 minutes from the islands. These are mainly drop-offs or the depth varies between 12 and 60m. The show is impressive and dizzying, thanks to giant sea fans, caves and crevasses. Regular meetings with

**NOSY BE PARADISE TOURS**
