Duration: One day

Departure: Madirokely Beach

Description of circuits

Number of pax: Customers, Guide Accompagnateur, Skippeur

Boat Type: Fast Ship, 20 Lifejackets Available

Lunch: picnic at Nosy Sakatia

Strong point:

Encounter with mammal

Whale research

Lazing

Swimming with sea turtle

At 8:30 am: Briefing and departure for the exit of the Whales at Bosse. However, the morning is spent researching and observing humpback whales and dolphins.

Yet this is an opportunity to witness an extraordinary show: Mother / calf couple resting on the surface, caudal and pectoral strikes and often spectacular jumps!

This outing is an opportunity for us to educate travelers on these marine mammals. At 13:30, a typical and hearty meal will be served on the beach of Nosy Sakatia. To continue, at 14:30: it's time to do the Snorkeling free to the beach to observe the turtles (depending on the tide). Finally, return at 15:30.

Services included:

Accompanist

Lunch

Mineral water

Right of visits

Material for snorkeling

Services non included:

Drinks

Personal extras
